

Press Release

Arnot Medical Services Selects Anodyne Analytics™

Atlanta, GA. – June 23, 2008 – Anodyne Health, a leading provider of revenue cycle management solutions for the healthcare industry, announced today that its business intelligence (BI) solutions will be implemented at Arnot Medical Services (AMS) located in Elmira, New York. AMS was looking for a solution that would allow them to become more efficient and responsive to information requests.

AMS is composed of 100 physicians who treat patients at numerous locations throughout the southern tier of New York, as well as northern Pennsylvania. These physicians have expertise in various specialties, including Cardiology, Endocrinology, Facial Plastics, Infectious Disease, Neurology, and Vascular Surgery. Karen Millard, Billing Manager at Arnot Medical Services said, "Anodyne Analytics™ is easy to use and puts information at my fingertips. This application will allow me to get information to the physicians any way they want it presented."

"Anodyne Analytics™ will allow Arnot Medical Services to obtain quick and accurate data without relying on technical resources to do the data extractions," stated Michael Funk, CEO of Anodyne Health. "As a result of implementing our BI solutions, AMS will significantly compress their analytical cycle and put powerful analysis tools in the hands of their management team."

About Anodyne Health

Anodyne Health (www.anodynehealth.com) delivers revenue cycle solutions to healthcare provider organizations including physician billing, medical coding and business intelligence software. The company's billing solution helps practices collect more revenue, minimize compliance risk and gain a deeper understanding into the business side of their practice. Anodyne's unique, easy-to-use web-based business intelligence software revolutionizes access to revenue cycle information that was once thought difficult, or even impossible, to obtain.
