

Press Release

Beacon Orthopaedics & Sports Medicine Selects Anodyne Health

Atlanta, GA. – March 26, 2009 – Anodyne Health, a leading provider of revenue cycle management solutions for the healthcare industry, announced that its business intelligence (BI) solutions will be implemented at Beacon Orthopaedics & Sports Medicine, located in Sharonville, Ohio. Beacon Orthopaedics & Sports Medicine was looking for a solution that would expand and improve their access to revenue cycle data.

Beacon Orthopaedics & Sports Medicine employs 12 board-certified physicians within numerous orthopaedic sub-specialties. Marilyn Orr, Executive Director of Beacon Orthopaedics & Sports Medicine, said, "We have two practice management systems that we use at Beacon; one for our surgery center and one for our general practice. We were looking for a solution that would be able to service both platforms. We were also looking for a tool that would allow us to provide our physicians with clearer, more graphical reporting capabilities. We found great appeal in Anodyne's Physician/Executive Dashboards that would allow our physicians to get to their own data themselves, not having to rely on someone from the administrative staff to present them with the data they've requested. We believe that Anodyne's solutions will provide better transparency throughout our organization and bring a higher degree of credibility to the reports we pull. Also, with Anodyne's solutions in place, we will no longer have to rely on outsourcing SQL report writing requests as we will have the ability to pull our own reports with Anodyne's user friendly interface."

"Our BI solutions will make Beacon Orthopaedics & Sports Medicine significantly more productive from an analytical perspective, while dramatically reducing the interdependency within their organization to answer business questions, both simple and complex," stated Michael Funk, CEO of Anodyne Health. "We are very excited to begin working with Marilyn and her entire management team."

About Anodyne Health

Anodyne Health (www.anodynehealth.com) delivers revenue cycle solutions to healthcare provider organizations including physician billing, medical coding, and business intelligence software. The company's billing solution helps practices collect more revenue, minimize compliance risk, and gain a deeper understanding into the business side of their practice. Anodyne's unique, easy-to-use, web-based business intelligence software revolutionizes access to revenue cycle information that was once thought difficult, or even impossible, to obtain.
