

Press Release

Cardiology Associates of Mobile Chooses Anodyne

Atlanta, GA. – June 10, 2008 – Anodyne Health, a leading provider of revenue cycle management solutions for the healthcare industry, announced today that its business intelligence (BI) solutions will be implemented at Cardiology Associates of Mobile. Headquartered in Mobile, Alabama, Cardiology Associates chose Anodyne's BI solutions to deliver rich, graphical visualizations quickly and in a fashion that was very easy to use.

Cardiology Associates provides the Gulf Coast communities with the highest quality cardiac care by not only treating their patients, but educating them as well. They send out newsletters, host health fairs and lectures, and have an informative website where people are able to learn about living healthier lives. The staff at Cardiology Associates also represents every cardiology subspecialty in the nation. These providers are on-call 24 hours a day, seven days a week, and they are always continuing their education and training in order to sustain and improve their exceptionally high skill levels.

"Anodyne's business intelligence solutions will provide me with a way to access our revenue cycle information faster than I can now. It will also give me the ability to have this information displayed graphically," commented Vance Chunn, CEO of Cardiology Associates of Mobile. "Every reference that I checked spoke highly of Anodyne's customer service and reinforced their integrity and commitment to their clients."

"Anodyne's BI solutions were developed so that business professionals within healthcare would be able to directly access rich and actionable information, without relying on the support of IT-oriented resources," stated Michael Funk, CEO of Anodyne Health. "By using Anodyne's tools, Cardiology Associates will significantly increase the visibility they have into their revenue data."

About Anodyne Health

Anodyne Health (www.anodynehealth.com) delivers revenue cycle solutions to healthcare provider organizations including physician billing, medical coding and business intelligence software. The company's billing solution helps practices collect more revenue, minimize compliance risk and gain a deeper understanding into the business side of their practice. Anodyne's unique, easy-to-use web-based business intelligence software revolutionizes access to revenue cycle information that was once thought difficult, or even impossible, to obtain.
