

Press Release

The Children's Surgical Foundation Chooses Anodyne Health

Atlanta, GA. – March 18, 2009 – Anodyne Health, a leading provider of revenue cycle management solutions for the healthcare industry, announced today that its business intelligence (BI) solutions will be implemented at the Children's Surgical Foundation, a multi-specialty surgical group located in Chicago, Illinois. The Children's Surgical Foundation was looking for a solution that would enhance their ability to manage a complex organization.

The Children's Surgical Foundation employs approximately 48 dedicated physicians who provide exceptional pediatric surgical services to their patients. The Children's Surgical Foundation has nine surgical disciplines and over 20 multidisciplinary programs. With more years of experience than any other pediatric surgical group in the Midwest, The Children's Surgical Foundation is known for their revolutionary research, great teaching, and outstanding care. "The Children's Surgical Foundation, Inc. Physicians see patients at numerous locations around the Chicagoland area," commented Brad Kupferberg, Executive Director and CEO of Children's Surgical Foundation. "By implementing the Anodyne Health product we plan to look at the different locations in depth to strengthen our revenue cycle."

"Anodyne Analytics™ will give The Children's Surgical Foundation the ability to obtain quick and actionable revenue data without relying heavily on internal IT resources," stated Michael Funk, CEO of Anodyne Health. "As a result of implementing our BI solutions, they will significantly compress their analytical cycle and put powerful analysis tools in the hands of their management team. We look forward to working with such a respected organization."

About Anodyne Health

Anodyne Health (www.anodynehealth.com) delivers revenue cycle solutions to healthcare provider organizations including physician billing, medical coding, and business intelligence software. The company's billing solution helps practices collect more revenue, minimize compliance risk, and gain a deeper understanding into the business side of their practice. Anodyne's unique, easy-to-use, web-based business intelligence software revolutionizes access to revenue cycle information that was once thought difficult, or even impossible, to obtain.
