

Press Release

Davin Juckett Joins Anodyne's Executive Team

Atlanta, GA. – February 19, 2008 – Anodyne Health, a leading provider of revenue cycle management solutions for the healthcare industry, welcomes the addition of Davin Juckett to their Executive Team as Senior Vice President of Operations. With significant experience in healthcare finance, technology and outsourced business services, Davin will oversee Anodyne's Emergency Medicine, Medical Coding, and Physician Practice Management divisions.

Davin previously served as CEO of Piedmont Healthcare Management Group (PHMG), a leading provider of healthcare business services within the Emergency Medicine specialty. While at PHMG, Davin was responsible for corporate strategy and led the company's daily operations. During his tenure, PHMG matured from a start-up company into a profitable business recognized for its focus on customer service and its innovative technology solutions.

Prior to joining PHMG, Davin was the Founder and Managing Partner of a multi-million-dollar private investment firm. He has also held leadership positions within asset management at J.P. Morgan and within public accounting at PricewaterhouseCoopers.

"Anodyne is very excited to have Davin Juckett join our executive team," said Michael Funk, CEO of Anodyne Health. "Davin brings a wealth of industry knowledge in addition to a track record of successful business execution."

Davin received his Bachelor of Science in Accounting from Wake Forest University and earned a Masters of Business Administration from The Wharton School.

About Anodyne Health

Anodyne Health (www.anodynehealth.com) delivers revenue cycle solutions to healthcare provider organizations including physician billing, medical coding and business intelligence software. The company's billing solution helps practices collect more revenue, minimize compliance risk and gain a deeper understanding into the business side of their practice. Anodyne's unique, easy-to-use web-based business intelligence software revolutionizes access to revenue cycle information that was once thought difficult, or even impossible, to obtain.
