Hammond Clinic Selects Anodyne Health

Atlanta, GA. – June 24, 2009 – Anodyne Health, a leading provider of revenue cycle management solutions for the healthcare industry, announced today that its business intelligence (BI) solutions will be implemented at Hammond Clinic, located in Munster, Indiana. Hammond Clinic selected Anodyne's BI solutions for their ability to quickly and easily produce rich visualizations of revenue cycle data streams.

Hammond Clinic employs 60 providers that offer comprehensive healthcare to its patients at three different, state-of-the-art facilities. These providers specialize in numerous fields, including cancer care, cardiology, dermatology, general and thoracic surgery, neurology, and physical therapy. John Wendel, Hammond Clinic's Chief Financial Officer said, "The Hammond Clinic has been searching for a tool that will allow us to fully utilize the information present in our billing system without incurring a huge amount of manual effort. After viewing Anodyne's demonstration, we were certain that we found our solution. Anodyne's product will save many man-hours in the gathering of information and allow the management team to concentrate on solutions."

Anodyne's BI tools allow business professionals within physician practices to gain a total command of performance across the entire revenue cycle continuum without the involvement of IT resources. "By utilizing Anodyne's tools, Hammond Clinic will significantly increase the visibility they have into their revenue cycle data. By putting this kind of information at the fingertips of their management team, we will afford them the opportunity to drive continuous improvement into their practice," commented Michael Funk, Chief Executive Officer of Anodyne Health.

About Anodyne Health

Anodyne Health (www.anodynehealth.com) delivers revenue cycle solutions to healthcare provider organizations including physician billing, medical coding, and business intelligence software. The company's billing solution helps practices collect more revenue, minimize compliance risk, and gain a deeper understanding into the business side of their practice. Anodyne's unique, easy-to-use, web-based business intelligence software revolutionizes access to revenue cycle information that was once thought difficult, or even impossible, to obtain.
