

Press Release

Kansas Orthopaedic Center Selects Anodyne Health

Atlanta, GA. – August 13, 2009 – Anodyne Health, a leading provider of revenue cycle management solutions for the healthcare industry, announced today that its business intelligence (BI) solutions will be implemented at Kansas Orthopaedic Center, located in Wichita, Kansas. Kansas Orthopaedic Center selected Anodyne's BI solutions for their ability to quickly and easily produce rich visualizations of revenue cycle data streams.

Kansas Orthopaedic Center employs 8 physicians that offer comprehensive orthopaedic care to their community. These providers specialize in several sub-specialties in orthopaedics and physical medicine. Some of their services include general orthopaedic care, treating work-related injuries, sports medicine, total joint replacement, arthroscopic surgery, and pediatric orthopaedic care.

"Kansas Orthopaedic Center's decision to purchase Anodyne Analytics™ was based on a number of factors that we believe will be of great value to our practice. First, their tools appeared to be very easy-to-use, presenting data in a highly relevant fashion. Second, their monthly subscription fee business model enables us to proceed without significant upfront fees, attaining an enterprise-class BI solution whereby Anodyne manages everything. This combination of rich functionality and low risk made our decision easy," said Liz Ann Tolberd, Administrator of Kansas Orthopaedic Center.

Anodyne's BI tools allow business professionals within physician practices to gain a total command of performance across the entire revenue cycle continuum without the involvement of IT resources. "By utilizing Anodyne's tools, Kansas Orthopaedic Center will significantly increase the visibility they have into their revenue cycle data. By putting this kind of information at the fingertips of their management team, we will afford them the opportunity to drive continuous improvement into their practice," commented Michael Funk, Chief Executive Officer of Anodyne Health.

About Anodyne Health

Anodyne Health (www.anodynehealth.com) is a leading provider of Business Intelligence (BI) solutions for healthcare provider organizations. The company's unique, easy-to-use, web-based BI software, which includes both an ad-hoc analytics and a dashboard application, revolutionizes access to revenue cycle information that was once thought difficult, or even impossible, to obtain. Anodyne's end-to-end solutions are delivered through a low-risk, Software-as-a-Service business model, where the data extraction, hosting, training, support, security, and disaster recovery are all managed by Anodyne.
