

## Press Release

### Medical Advanced Pain Specialists Choose Anodyne Health

**Atlanta, GA. – April 10, 2008** – Anodyne Health, a leading provider of revenue cycle management solutions for the healthcare industry, announced that its business intelligence (BI) solutions will be implemented at Medical Advanced Pain Specialists (MAPS) located in Minneapolis, Minnesota. MAPS was looking for a solution that would help improve their revenue cycle process.

MAPS is composed of 19 physicians who strive to relieve pain and improve function in patients with unrelenting pain who have stopped responding to routine treatment. MAPS physicians are board-certified in numerous fields and are specially trained in spinal injection by the American Society of Interventional Pain Physicians and the International Spinal Injection Society. MAPS has 11 locations throughout Minnesota, which includes two office-based pain clinics and one ambulatory surgery center.

Gary Pelletier, a manager in the central business office at Medical Advanced Pain Specialists said, "We believe that the added capabilities that Anodyne's business intelligence solutions will bring to our practice will enable us to become more proactive in analyzing and finding actionable data points to improve the revenue cycle process."

"By using Anodyne's tools, MAPS will be able to thrive in an ever-changing healthcare environment," stated Michael Funk, CEO of Anodyne Health. "Our cutting-edge BI solutions will make them infinitely more productive while dramatically reducing the interdependency within their organization to answer business questions, both simple and complex."

#### About Anodyne Health

Anodyne Health ([www.anodynehealth.com](http://www.anodynehealth.com)) delivers revenue cycle solutions to healthcare provider organizations including physician billing, medical coding and business intelligence software. The company's billing solution helps practices collect more revenue, minimize compliance risk and gain a deeper understanding into the business side of their practice. Anodyne's unique, easy-to-use web-based business intelligence software revolutionizes access to revenue cycle information that was once thought difficult, or even impossible, to obtain.
