

Press Release

Maine Center for Cancer Medicine Partners with Anodyne Health

Atlanta, GA. – April 21, 2008 – Anodyne Health, a leading provider of revenue cycle management solutions for the healthcare industry, recently partnered with Maine Center for Cancer Medicine (MCCM), a private medical group practice located throughout Maine. MCCM was looking for a solution that would give them heightened visibility into their revenue cycle data.

MCCM is made up of 23 oncologists and hematologists who have been providing their patients with excellent medical care and information on cancers and blood disorders since 1978. These patients also have access to clinical trials, integrated cancer care, cancer related genetic information and related services, home care, hospice care, and state-of-the-art cancer chemotherapy. Tom Polko, Executive Director of MCCM said, "We are anticipating that Anodyne's BI solutions will improve our ability to analyze and understand every aspect of our revenue cycle process."

"With Anodyne's solutions, it is very easy to produce actionable information across the entire revenue cycle continuum. This will allow Maine Center for Cancer Medicine to make better, more informed decisions," commented Michael Funk, CEO of Anodyne Health. "Also, we are confident that our solutions will drive increased revenue, allowing MCCM to have more resources to dedicate to their patients."

About Anodyne Health

Anodyne Health (www.anodynehealth.com) delivers revenue cycle solutions to healthcare provider organizations including physician billing, medical coding and business intelligence software. The company's billing solution helps practices collect more revenue, minimize compliance risk and gain a deeper understanding into the business side of their practice. Anodyne's unique, easy-to-use web-based business intelligence software revolutionizes access to revenue cycle information that was once thought difficult, or even impossible, to obtain.
