

## Press Release

### NEA Clinic Selects Anodyne's BI Solutions

**Atlanta, GA. – June 8, 2009** – Anodyne Health, a leading provider of revenue cycle management solutions for the healthcare industry, announced today that its business intelligence (BI) solutions will be implemented at NEA Clinic, the largest multi-specialty clinic in Northeast Arkansas. NEA Clinic was looking for data management solutions that would enable them to enhance their ability to manage a complex and growing organization.

NEA Clinic offers their patients access to highly-trained specialists and the latest technology at 34 different locations surrounding Jonesboro, Arkansas. "NEA Clinic is a growing and dynamic physician group practice. As such, we need to be able to analyze data and make decisions timely, but timely along with good information. Anodyne will give us the ability to quickly obtain invaluable information to address financial and operational issues within the organization. We have always believed that good doctors, given good information, will make good decisions. Anodyne simply helps the entire organization gain access to our own information in a user-friendly and easily accessible manner," said Scot Davis, Chief Financial Officer of NEA Clinic.

"Anodyne Analytics™ will give NEA Clinic the ability to obtain quick and actionable revenue cycle data without relying heavily on internal IT resources," stated Michael Funk, Chief Executive Officer of Anodyne Health. "As a result of implementing our BI solutions, NEA Clinic will be well positioned to continue their growth while running a first rate business operation."

#### About Anodyne Health

Anodyne Health ([www.anodynehealth.com](http://www.anodynehealth.com)) delivers revenue cycle solutions to healthcare provider organizations including physician billing, medical coding, and business intelligence software. The company's billing solution helps practices collect more revenue, minimize compliance risk, and gain a deeper understanding into the business side of their practice. Anodyne's unique, easy-to-use, web-based business intelligence software revolutionizes access to revenue cycle information that was once thought difficult, or even impossible, to obtain.
