

Press Release

Saint Barnabas Health Care System Selects Anodyne Health

Atlanta, GA. – April 22, 2009 – Anodyne Health, a leading provider of revenue cycle management solutions for the healthcare industry, announced that their business intelligence (BI) solutions will be implemented at Saint Barnabas Health Care System, located in New Jersey. Saint Barnabas Healthcare System was looking for a solution that would grant them greater visibility of their entire revenue cycle in order to help them be a better partner to their third party billing company.

Saint Barnabas Health Care System is New Jersey's largest integrated health care delivery system. Their award winning staff treats over two million patients annually from numerous locations, including Clara Maass Medical Center, Saint Barnabas Medical Center, and Newark Beth Israel Medical Center. Among many of their renowned services, Saint Barnabas Health Care System is home of New Jersey's oldest and most experienced heart transplant center and offers the state's only lung transplant program.

Anodyne's ad-hoc analytics solution allows business professionals with healthcare organizations to interact directly with their data, through a "self-service" model, minimizing the need for support from IT personnel or analysts. With extremely fast response-times, users are able to access desired information within seconds. "By implementing our BI solutions, Saint Barnabas will significantly compress their analytical cycle and put powerful analysis tools in the hands of their management team," stated Michael Funk, CEO of Anodyne Health. "Also, with our application's ability to quickly produce rich visualizations that can easily be disseminated, Saint Barnabas can improve communication with their third party billing vendor, and enhance their partnership considerably."

About Anodyne Health

Anodyne Health (www.anodynehealth.com) delivers revenue cycle solutions to healthcare provider organizations including physician billing, medical coding, and business intelligence software. The company's billing solution helps practices collect more revenue, minimize compliance risk, and gain a deeper understanding into the business side of their practice. Anodyne's unique, easy-to-use, web-based business intelligence software revolutionizes access to revenue cycle information that was once thought difficult, or even impossible, to obtain.
